

Our mission

Improve medicine in the communities we serve.

COPIC Insures:

14,000+
physicians

190+
medical
facilities and
hospitals

COPIC was founded by Colorado physicians in 1981 to address a medical liability crisis as premium rates were skyrocketing and major insurers were leaving the state. From the beginning, the company embraced ideals to ensure a stable medical liability environment, utilize a physician-directed approach, and put the interests of improving health care first.

COPIC is committed to improving medical outcomes and invests in education, risk management programs, patient safety initiatives, and other resources. Our goal is to support medical professionals and help them deliver the best patient care possible.

Today, COPIC is recognized as a trusted partner for physicians, medical professionals, group practices, health care facilities, and hospitals. We provide coverage in multiple states in the Midwest and Rocky Mountain regions. Through COPIC Insurance Company and the COPIC Risk Retention Group, we offer coverage nationwide.

COPIC
Family of
Companies

COPIC Insurance Company

is a leading provider of medical professional liability insurance and recognized for its industry-leading patient safety and risk management programs.

COPIC Medical Foundation

supports improvements in health care outcomes through the advancement of patient safety and quality improvement initiatives.

COPIC Financial Service Group

is a brokerage and consulting firm that focuses on financial services and products for members of the health care community.

COPIC Risk Retention Group

is an alternative option for liability insurance that allows for flexible coverage nationwide.

COPIC Protected Cell Captive

is a vehicle for large practice groups and health systems to fund their self-insured retention levels.

Key Principles

COPIC's Board of Directors consists of respected physicians with diverse medical backgrounds and business leaders with health care experience.

- COPIC focuses on learning from past medical errors to prevent future ones.
- When medicine meets the standard of care, COPIC vigorously defends insureds. When patients are injured due to a failure to meet the standard of care, we support fair and expeditious compensation.
- Our educational resources reinforce proactive, preventative measures designed to reduce risk and improve internal systems.
- COPIC strives to maintain a stable tort environment, which has a direct impact on accessible, affordable health care.

Each
year...

COPIC fields over
16,000
calls from insureds
regarding patient
safety, risk
management, legal,
and HR concerns

offers more than
150
seminars and over
60
on-demand courses

and works with
2,000+
providers
as part of on-site
and virtual reviews

>> **Our core business is medical professional liability insurance, but we provide much more...**

COPIC offers additional resources to help manage the business of health care; these include support in dealing with issues such as human resources, data breaches, business compliance, and managing medical records.

Our team of expert physicians, attorneys, and claims specialists provide unparalleled support; together, they help insureds navigate the complexities of health care.

Drawing upon claims data, we identify high-risk areas and provide guidance on how to address these; COPIC develops “best practices” that are used with on-site and virtual reviews to help the health care community improve patient care. We continually share our knowledge.

COPIC is a trusted and convenient source for professional medical education; from current trends to evidence-based practices, we offer ongoing education that has earned us the highest accreditation status from the Accreditation Council for Continuing Medical Education (ACCME). COPIC is also accredited as a provider of Continuing Nursing Education (CNE).

Alternative programs that address unanticipated outcomes; Our nationally-recognized 3Rs Program and Candor expertise focus on preserving the physician-patient relationship, and encourage honest, open dialogue.

COPIC is dedicated to state-level advocacy that supports the practice of good medicine; this includes monitoring legislative and regulatory activities that may impact health care, as well as keeping legislators informed on key issues.

We support the broader health care community through funding that has surpassed \$10 million; the COPIC Medical Foundation funds programs and initiatives that improve patient safety and quality of care, focusing on issues caused by fragmentation across care settings.

We support physicians at all stages of their careers—from our medical resident rotation program to 24/7 access to our physician risk managers to offering volunteer coverage for retired physicians, and financial planning support every step of the way. COPIC is there.

COPIC is the endorsed carrier of the following organizations:
